## About Us

“ Our mission is to provide only products of the highest quality that we personally recommend for their performance, reliability and durability. We won't sell anything that doesn't meet our standard of quality. ”

Your assurance of quality from us is on your invoice. The name “Dentequip” will not be tarnished by a sub-standard product. If it is on our product list, it is there because it's quality has been deemed worthy of representing our name and we provide it proudly, backed by a Dentequip warranty.

13 years in the dental industry  
...and still going strong

Dentequip are a dedicated team of professionals with many years experience in the Dental Industry, committed to maintaining and improving our ongoing initiatives to provide high quality products and excellent customer service.

## Our Services

### Practice Design & Building

Take advantage of our extensive technical knowledge in the specific needs of a purpose built dental practice. Striking design with ergonomic function, maximises the efficiency of your daily procedures and creates a practice that works around YOU.

Worried about liaising with local council?

Our team manage all council applications and correspondence with complete efficacy and discretion. The breadth and depth of our knowledge surprise most but see for yourself how our quality and comprehensive service stands out from the rest.

### Project Management

Dentequip's project managers have a sound working knowledge of the regulations and requirements specific to the dental industry which ensures your projects are completed correctly, first time, every time.

Our project management services are ideal for the building of new practices or the renovation of existing buildings. Rest assured your practice is in the safe hands of a dental industry professional, knowledgeable in the needs of your practice.

### General Maintenance & Service Programs

All major assets benefit from regular servicing and access to on-call troubleshooting, your practice equipment is no different. Dentequip's service department undertake regular servicing of all major equipment, with most practices undertaking specialised service programs that keep track of all major services and maintenance for each individual piece of equipment. Troubleshooting and repair services are also offered with fast response times in the metro area and regular visits to regional areas.

Handpiece repairs and offsite equipment repairs can also be undertaken at our fully equipped workshop. Repairs or maintenance of all major handpiece brands are returned within 48 hours\* of receipt.

### Specialist Services

Dentequip also offer specialised trade services to make certain that repairs, alterations and renovations minimise your downtime while also ensuring all work is within dental and medical regulations. Below are just a few of the trades provided that can cater to the specialised needs of your practice.

- Building & Planning Permits
- Electrical
- Plumbing
- Flooring
- Cabinetry
- Construction
- Design and Architecture
- Computers & Networking
- Security Systems & Surveillance
